POINT OF SALE SOLUTIONS

ARMOR POS:

This versatile POS system is a cloud-based solution designed to enhance operations and customer experiences in both restaurants and shopping malls. For restaurants, it manages orders, menus, inventory, payments, and delivery, while enabling mobile POS and contactless options. In shopping malls, it supports multiple stores, built-in QR and service menu, tracks sales and inventory, and integrates with third-party platforms. Key features like dynamic pricing, VAT management, and real-time reporting provide operational control, while cloud storage ensures secure data access and backup. The system improves efficiency, customer satisfaction, and profitability across both sectors.

FEATURES:

- Order Management
- Menu Management
- Payment Processing
- Receipt & Bill Generation
- Inventory Management
- Employee Management
- Reporting & Analytics
- Kitchen Management
- Multi-location Support
- Integration with Third-party Systems
- Dynamic Pricing
- Menu Optimization
- VAT Management
- Mobile POS Capabilities
- Delivery & Takeout Management
- Contactless Payment Options
- Mobile & Cloud Access
- Third-party API Integrations
- Data Backup & Recovery
- Cloud-based Storage & Management
- Advanced Tax Options & Compliance

AI CARCOM

AI-powered vehicle diagnostics platform offering real-time monitoring, predictive maintenance, repair insights, and trusted works hop booking.

FEATURES:

- Real-time vehicle diagnostics using an OBD-II device
- AI-driven predictive maintenance to detect issues before failures
- Vehicle health monitoring dashboard for drivers
- Repair cost transparency and service recommendations
- Workshop/garage booking through a trusted repair network
- Data analytics and vehicle insights for smarter maintenance decisions
- Mobile app integration for monitoring and alerts
- Proactive maintenance rewards and notifications

KLINIX

AI-powered clinic management platform with
AI note-taker, smart commands, patient
management, and automated workflows.

FEATURES:

- AI Note-Taker for automatically capturing and summarizing patient consultations from online meetings and personal visits.
- Smart Command Control System to manage clinic tasks using simple commands
- Multi-Role Management (Admin, Doctor, Staff) with role-based access control
- Patient Management System for records, history, and profiles
- Appointment Scheduling and calendar management
- Clinic Workflow Automation to streamline daily operations
- Medical Notes & Documentation Management
- Notifications and task reminders for staff and appointments
- Centralized dashboard for clinic insights and management

CALL MASTER AI

AI voice automation platform enabling intelligent voice agents, conversational commands, automated calls, and real-time business workflows.

FEATURES:

- AI Voice Agents for handling inbound and outbound calls automatically
- Conversational AI & Natural Language Understanding for human-like interactions
- Voice Command Automation to trigger workflows and manage tasks via voice
- AI Call Handling & Customer Support available 24/7
- Real-Time Speech-to-Text and Text-to-Speech Processing
- Integration with CRM, APIs, and business tools for automated actions
- Call Analytics and Insights Dashboard to monitor interactions
- Custom AI Agent Training using business knowledge and workflows

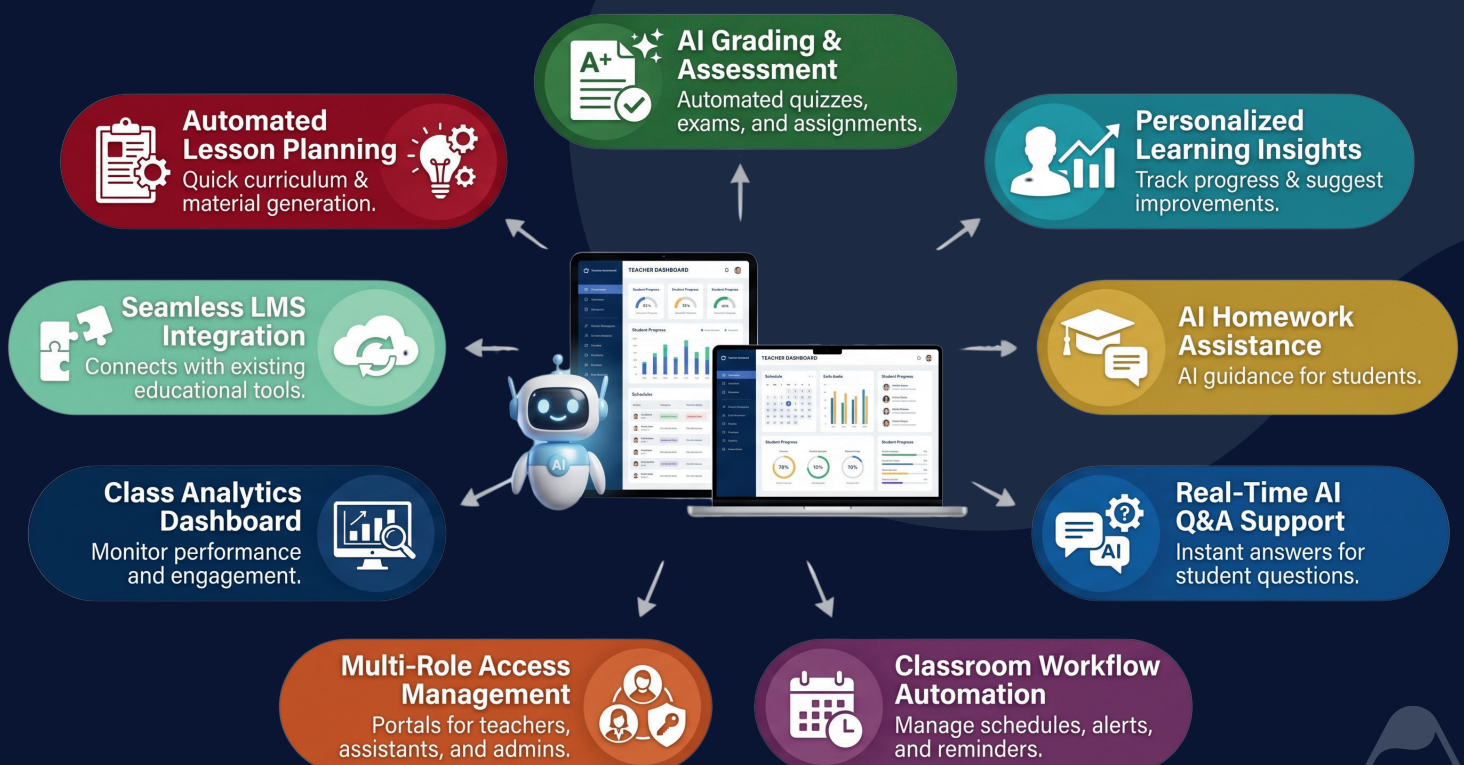

AI TEACHER ASSISTANT

AI-powered teaching assistant that automates lesson planning, grading, student support, and personalized learning insights.

FEATURES:

- Automated Lesson Planning to generate curriculum content and teaching materials quickly
- AI Grading & Assessment for quizzes, assignments, and exams
- Personalized Learning Insights to track student progress and suggest improvements
- Homework & Assignment Assistance for students using AI guidance
- AI-Powered Q&A Support to answer student questions in real time
- Classroom Workflow Automation to manage schedules, notifications, and reminders
- Multi-Role Management for teachers, assistants, and administrators
- Analytics Dashboard to monitor class performance and student engagement
- Integration with LMS and Educational Tools for seamless teaching operations

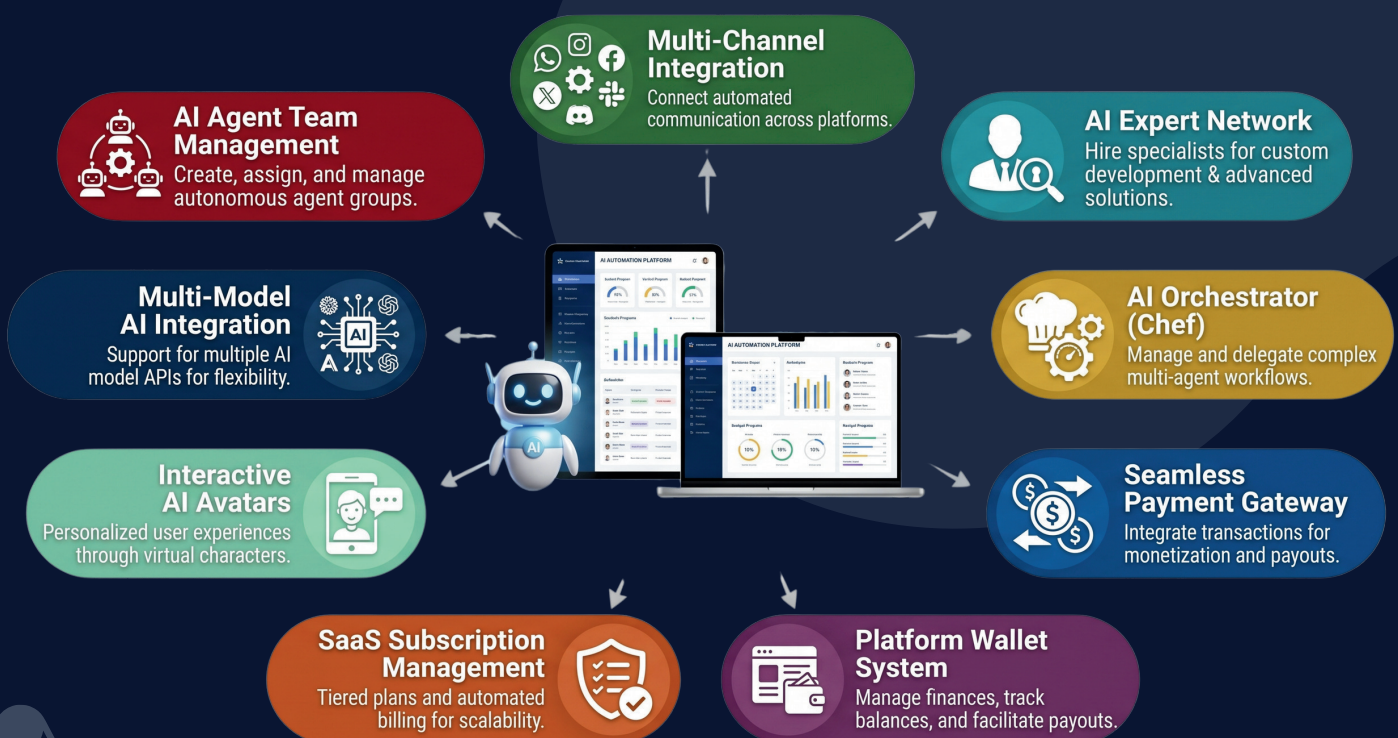

BIZZBOT

BizzBot is a next-generation autonomous AI platform that enables users to create, manage, and scale their own AI agent teams. It allows businesses and individuals to automate tasks, build AI-driven workflows, and deploy intelligent agents across multiple communication channels—all from a single unified platform.

FEATURES:

- Create and manage AI agent teams with autonomous task execution
- Multi-channel integration (WhatsApp, Instagram, Facebook, Slack, Discord) for automated communication
- AI Skills Marketplace to publish, discover, and reuse AI capabilities
- Access to AI experts for custom development and advanced solutions
- Centralized AI orchestrator (Chef) to manage and delegate complex workflows
- Seamless payment gateway integration for transactions and monetization
- Wallet system with payouts and financial management
- Subscription management for scalable SaaS operations
- AI avatars for interactive and personalized user experiences
- Support for multiple AI model integrations for enhanced flexibility

PROPERTY & APARTMENT MANAGEMENT SYSTEM

An end-to-end management ecosystem designed for real estate operators, property managers, and building administrators to centralize their operations.

FEATURES:

- **Rent & Lease Management:** Automated rent tracking, invoice generation, and lease expiration alerts.
- **Maintenance Ticketing:** A dedicated module for tenants to log issues, allowing managers to assign tasks, track repair progress, and manage maintenance budgets.
- **Employee Administration:** Tools for managing staff schedules, payroll processing, and task delegation for facility workers.
- **Financial Reporting:** Comprehensive dashboards detailing income, expenses, and occupancy rates across multiple properties or apartment complexes.

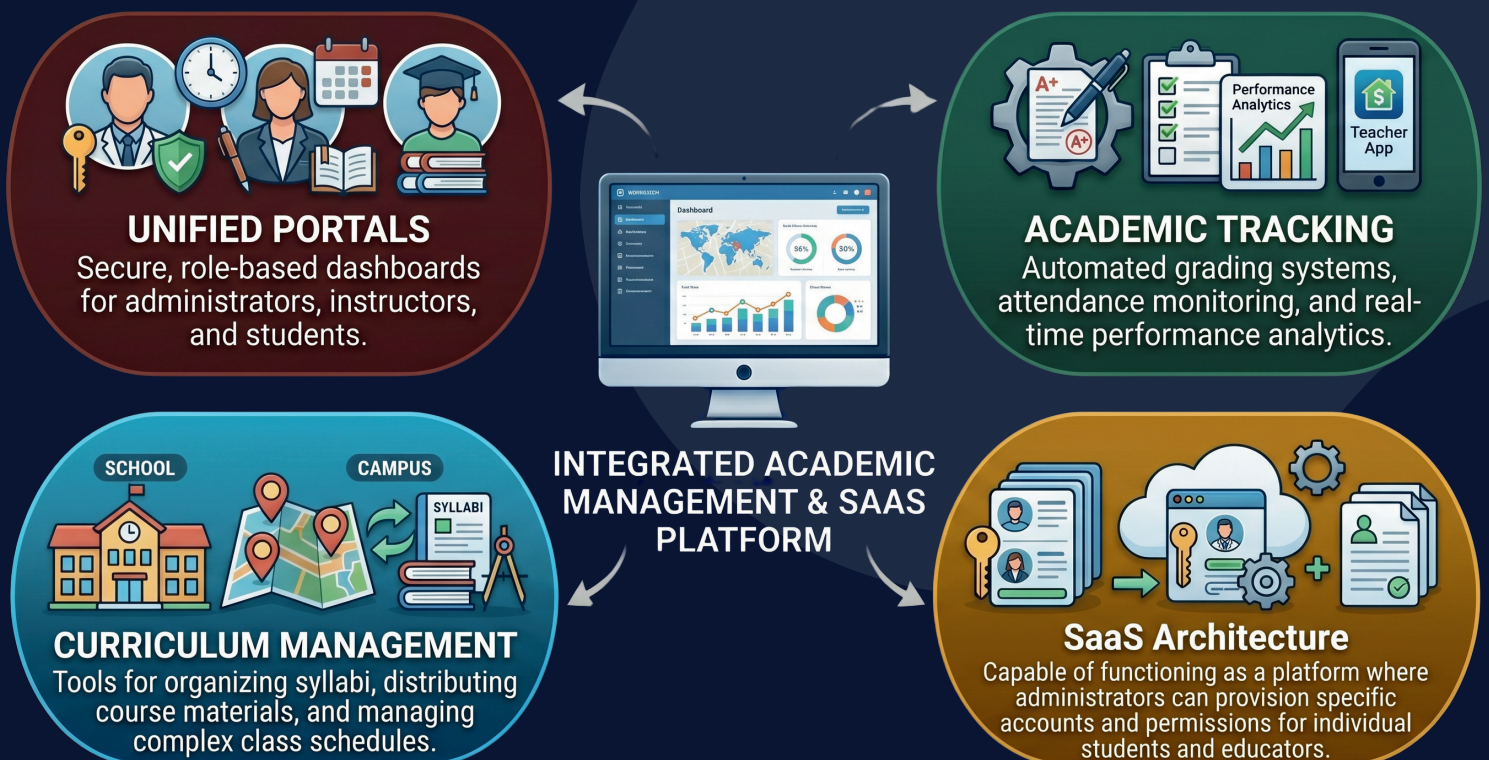

CAMPUS & LEARNING MANAGEMENT SYSTEM

A robust digital infrastructure tailored for schools and universities to bridge academic delivery with administrative control.

FEATURES:

- Unified Portals: Secure, role-based dashboards for administrators, instructors, and students.
- Academic Tracking: Automated grading systems, attendance monitoring, and real-time performance analytics.
- Curriculum Management: Tools for organizing syllabi, distributing course materials, and managing complex class schedules.
- SaaS Architecture: Capable of functioning as a platform where administrators can provision specific accounts and permissions for individual students and educators.

PRINTING BUSINESS & E-COMMERCE MANAGEMENT

Specialized workflow software optimized for the unique demands of custom printing operations and online retail storefronts.

FEATURES:

- **Order Lifecycle Tracking:** End-to-end visibility from initial customer inquiry and digital proofing to final fulfillment and shipping.
- **Dynamic Quoting Engine:** Automated price calculation based on variables such as material, dimensions, color configurations, and quantity.
- **Inventory Synchronization:** Real-time tracking of raw materials (for printing) and finished goods (for e-commerce), with automated low-stock alerts.
- **Customer Management:** Built-in CRM to track order history, preferences, and client communications.

STANDALONE QR MENU MAKER

A specialized application for the hospitality sector, allowing cafes and restaurants to digitize their offerings with high aesthetic control.

FEATURES:

- **Deep Theme Customization:** Allows businesses to tailor colors, layouts, and typography to match their specific brand identity.
- **Contactless Browsing:** Instant access to dynamic menus via smartphone, eliminating the need for physical materials.
- **Real-Time Updates:** Effortless backend management to update prices, add daily specials, or hide out-of-stock items instantly.
- **Visual Focus:** Optimized to display high-resolution, professional food photography to drive customer engagement and sales.

Deep Theme Customization
Allows businesses to tailor colors, layouts, and typography to match their specific brand identity.

Real-Time Updates
Effortless backend management to update prices, add daily specials, or hide out-of-stock items instantly.

Contactless Browsing
Instant access to dynamic menus via smartphone, eliminating the need for physical materials.

Visual Focus
Optimized to display high-resolution, professional food photography to drive customer engagement and sales.

DIGITAL MARKETING SERVICES

At **ARMOR TECH**, we provide result-driven digital marketing solutions designed to strengthen your online presence and help your business grow in the competitive digital world. Our digital marketing strategies are customized to match each client's business goals, target audience, and industry trends.

OUR DIGITAL MARKETING SERVICES INCLUDE:

SEARCH ENGINE OPTIMIZATION (SEO)

We optimize websites to improve search engine rankings, increase organic traffic, and enhance online visibility on platforms like Google.

PAID ADVERTISING (META & GOOGLE ADS)

We create and manage highly targeted advertising campaigns on Facebook, Instagram, and Google to generate leads, increase conversions, and maximize return on investment (ROI).

CONTENT MARKETING

We develop engaging and informative content that builds brand awareness, connects with audiences, and drives customer engagement.

LEAD GENERATION CAMPAIGNS

We design performance-based campaigns to attract high-quality leads and convert them into paying customers.

BRAND AWARENESS & ONLINE GROWTH

We help businesses build strong brand recognition across digital platforms through strategic campaigns and creative content.

SOCIAL MEDIA HANDLING & MANAGEMENT

ARMOR TECH offers complete social media management services to help businesses build strong connections with their audience and maintain a professional online presence.

OUR SOCIAL MEDIA MANAGEMENT SERVICES INCLUDE:

SOCIAL MEDIA ACCOUNT SETUP & OPTIMIZATION

Creating and optimizing business profiles on Facebook, Instagram, LinkedIn, TikTok, and other platforms.

CONTENT CREATION & POST DESIGN

Designing professional graphics, reels, and posts aligned with brand identity and market trends.

CONTENT PLANNING & SCHEDULING

Developing monthly content calendars and scheduling posts at optimal times for maximum reach.

AUDIENCE ENGAGEMENT

Responding to messages, comments, and inquiries to maintain active communication with customers.

PERFORMANCE MONITORING & REPORTING

Tracking insights, reach, engagement, and growth to continuously improve performance.

SOCIAL MEDIA ADVERTISING

Running paid campaigns to boost brand awareness, generate leads, and increase sales.

COLD EMAILING & BULK MESSAGING SERVICES

At **ARMOR TECH**, we provide professional communication and outreach services through cold emailing and bulk messaging to help businesses reach potential customers effectively.

OUR COLD EMAILING & MESSAGING SERVICES INCLUDE:

COLD EMAIL CAMPAIGN SETUP

Creating professional email templates designed to capture attention and encourage responses.

LEAD DATABASE MANAGEMENT

Organizing and managing targeted contact lists to ensure accurate and effective communication.

BULK EMAIL CAMPAIGN EXECUTION

Sending large-scale email campaigns with proper formatting, personalization, and delivery optimization.

BULK SMS & WHATSAPP MESSAGING

Running targeted bulk messaging campaigns for promotions, announcements, and customer engagement.

EMAIL CONTENT WRITING

Writing persuasive subject lines and message content that improves open rates and conversions.

CAMPAIGN TRACKING & REPORTING

Monitoring email open rates, click rates, and responses to evaluate campaign performance.
